Applying Pesticides Correctly - Private Applicator Supplement

Unit 5: Laws and Regulations, Page 5-5 and 5-6

### **Pesticide Recordkeeping for Restricted Use Pesticides (RUP)**

**In general, the records that must be kept include the following information.**

- The brand or product name of the RUP and its EPA registration number.**
- The size of the area treated.**
- The total amount of product applied.**
- The crop, commodity, stored product, or site to which the pesticide was applied.**
- The location of the application.**
- The month, day, and year of the application.**
- The certified/licensed applicator's name and certification number.**

**There is no required format or form for this recordkeeping. Any form is acceptable as long as the required information is included and records maintained for 2 years from the date of the pesticide application.**

**If a commercial applicator performs work for a landowner/operator, that applicator must provide the landowner/operator with a written copy of the necessary information about the application. Failure to comply with recordkeeping requirements can result in a fine.**
